### Adobe – An Award-Winning Employer

Adobe believes in hiring the very best and that's why we are an award-winning top 100 employer. Recognizing that employees are at the core of our success, Adobe recruits and retains highly qualified and motivated individuals, creates an environment where they can innovate and achieve their best, and rewards them for their performance by giving them an opportunity to share in the company's success. Adobe is consistently ranked as one of FORTUNE magazine's "100 Best Companies to Work For" and "Best Employer" in Romania and Central & Eastern Europe by Hewitt and Associates. We have been also honored with two spots (2008 and 2009) on Germany's "100 Best Places to Work For" list and a spot on Europe's "50 Best Small and Medium-Sized Workplaces" by the Great Places to Work Institute.

Day is a recently acquired Adobe company and a leading international provider of integrated enterprise content management and content repository software that helps customers manage and unify digital business information, applications and processes through the Web. CQ5 and CRX are world-class software products that are used for business-critical applications in the world's largest and most important companies. They are standards-based products at the leading edge of technology.

### Adobe Romania

[Adobe Romania](#) is the largest Research and Development center the company has in the Europe, Middle East and Africa region. Over 200 passionate and highly creative employees work on products and services for enhanced web development and consumption. Adobe Romania is the best company to work for in Romania (Hewitt survey 2008/2009). Adobe is an equal opportunity/affirmative action employer. We welcome and encourage diversity in the workplace.

## Position Summary

## Responsibilities

- Develops, implements and maintains test cases and scenarios. Writes and maintains test automation
- Develops test strategies and quality assurance standards
- Defines and tracks quality assurance metrics such as defect densities and open defect counts
- Participates in the software development process from design to release
- Designs, maintains and executes test plans, scenarios and test cases
- Works with Development, Release Engineering, Documentation and management to ensure maximum product quality

## Requirements

The requirements for this position include, but are not limited to the following:

- A bachelor's degree in Computer Science and at least 5 years of experience in quality assurance role and/or coding in Java
- Proficiency in computer related technology and strong communication and decision-making skills
- Proficiency of Object-Oriented Programming Methodology & Practice, ideally mastering the designing and programming of applications using Object Oriented Programming Methodology utilizing Java language constructs in Enterprise Software Products are a major plus
- Working knowledge of quality assurance methodologies, preferably from enterprise software product level quality assurance
- Familiar with Windows, UNIX and/or Solaris environments

## Benefits

- Industry-competitive salary
- Generous time off
- Educational assistance program
- Employee discounts on Adobe software
- Health Benefits
- Meaningful and challenging work

- Uniquely open and informal environment
- And much more...

Adobe is an equal opportunity employer. We welcome and encourage diversity in the workplace.

## Adobe Overview

Adobe (NASDAQ: ADBE) changes the world through digital experiences. For more than two decades, Adobe has been at the heart of making engaging experiences happen, and we fuel the content creation and delivery ecosystem in a way no other technology company can. Adobe's award-winning technologies and solutions have redefined business, entertainment, and personal communications by setting new standards for producing and delivering content that engages people anywhere at any time. From rich images in print, video, and film to dynamic digital content for a variety of media, Adobe solutions have positively impacted nearly every market and industry.

To achieve this, Adobe offers customers a wide range innovative tools, services and solutions to create highly compelling and effective content and applications, regardless of format or medium. We enable seamless delivery and consumer access to rich content and applications and deliver solutions that efficiently target, assemble, deliver and measure use of content and applications to achieve optimal return on investment. We enable these three things across media and devices, better than anyone else in the world.

Adobe has been a pioneer and innovator throughout its history and is recognized as one of the Top 100 Best Global Brands according to Interbrand.
