---

## Adobe – An Award-Winning Employer

Adobe believes in hiring the very best and that's why we are an award-winning top 100 employer. Recognizing that employees are at the core of our success, Adobe recruits and retains highly qualified and motivated individuals, creates an environment where they can innovate and achieve their best, and rewards them for their performance by giving them an opportunity to share in the company's success. Adobe is consistently ranked as one of FORTUNE magazine's "100 Best Companies to Work For" and "Best Employer" in Romania and Central & Eastern Europe by Hewitt and Associates. We have been also honored with two spots (2008 and 2009) on Germany's "100 Best Places to Work For" list and a spot on Europe's "50 Best Small and Medium-Sized Workplaces" by the Great Places to Work Institute.

## Adobe Romania

[Adobe Romania](#) is the largest Research and Development center the company has in the Europe, Middle East and Africa region. Over 175 passionate and highly creative employees work on products and services for enhanced web development and consumption. Adobe Romania is the best company to work for in Romania (Hewitt survey 2008/2009). Adobe is an equal opportunity/affirmative action employer. We welcome and encourage diversity in the workplace.

## About Adobe's SaaS Infrastructure and Operations Business Unit

The SaaS group (Software as a Service) is focused on architecting and delivering web-scale infrastructure services which are used in SaaS projects inside Adobe. We are offering services as: BigData storage and processing, video transcoding, video streaming, video fingerprinting, and social services such as commenting, rating and tagging.

## Position summary

The Program Manager will be coordinating aspects of the business for development and release of technologies, products, features, functions, customer deployments of enterprise software, and/or product designs within our group of teams. You will have to build and track the project schedule, help create specific processes and implement process improvements, and facilitate communication between multiple teams. You will help the development team deliver on time, within budget and to specification.

You will be responsible for understanding and articulating top issues on our projects, which you will bring up together with workable solutions proposals.

You will report into a Senior Engineering Manager overseeing an organization of multiple teams.

From a technical point of view, you must be familiar with the SaaS, web and mobile industry. You need reasonable technical knowledge in the fields of web development and web services, cloud computing. Previous contact with analytics and business intelligence projects is a big plus.

## Responsibilities

- Drive and perform efficient communication with US teams, including meeting and email list ownership, distributing content and following up action items
  - Build and track project schedules with supervision from the Engineering Manager
    - Manage and track dependencies between teams, escalate problems and come up with solution proposals
    - Understand our products and be a representative of our teams in various status meetings
    - Own development processes used in our group and come up with actionable improvement suggestions
    - Track group KPIs and report them to senior management

## Knowledge and Skills

- 3+ years of software development or program management experience
  - Able to multitask and work on multiple projects and tracks
  - Familiar with server-side development (web and service-based architectures)
    - Top notch communication skills, able to be credible and convincing in a phone conversation in English, able to deliver presentations when needed
    - Experience with multiple software development methodologies

- PMI certification is a plus

## **Benefits**

- Industry-competitive salary
- Generous time off
- Educational assistance program
- Employee discounts on Adobe software
- Health Benefits
- Meaningful and challenging work
- Uniquely open and informal environment
- And much more...

Adobe is an equal opportunity employer. We welcome and encourage diversity in the workplace.

## **Adobe Overview**

Adobe (NASDAQ: ADBE) changes the world through digital experiences. For more than two decades, Adobe has been at the heart of making engaging experiences happen, and we fuel the content creation and delivery ecosystem in a way no other technology company can. Adobe's award-winning technologies and solutions have redefined business, entertainment, and personal communications by setting new standards for producing and delivering content that engages people anywhere at any time. From rich images in print, video, and film to dynamic digital content for a variety of media, Adobe solutions have positively impacted nearly every market and industry.

To achieve this, Adobe offers customers a wide range innovative tools, services and solutions to create highly compelling and effective content and applications, regardless of format or medium. We enable seamless delivery and consumer access to rich content and applications and deliver solutions that efficiently target, assemble, deliver and measure use of content and applications to achieve optimal return on investment. We enable these three things across media and devices, better than anyone else in the world.

Adobe has been a pioneer and innovator throughout its history and is recognized as one of the Top 100 Best Global Brands according to Interbrand.
