Adobe – An Award-Winning Employer

Adobe believes in hiring the very best and that's why we are an award-winning top 100 employer. Recognizing that employees are at the core of our success, Adobe recruits and retains highly qualified and motivated individuals, creates an environment where they can innovate and achieve their best, and rewards them for their performance by giving them an opportunity to share in the company's success. Adobe is consistently ranked as one of FORTUNE magazine's "100 Best Companies to Work For" and "Best Employer" in Romania and Central & Eastern Europe by Hewitt and Associates. We have been also honored with two spots (2008 and 2009) on Germany's "100 Best Places to Work For" list and a spot on Europe's "50 Best Small and Medium-Sized Workplaces" by the Great Places to Work Institute.

Day is a recently acquired Adobe company and a leading international provider of integrated enterprise content management and content repository software that helps customers manage and unify digital business information, applications and processes through the Web. CQ5 and CRX are world-class software products that are used for business-critical applications in the world's largest and most important companies. They are standards-based products at the leading edge of technology.

Adobe Romania

[Adobe Romania](#) is the largest Research and Development center the company has in the Europe, Middle East and Africa region. Over 200 passionate and highly creative employees work on products and services for enhanced web development and consumption. Adobe Romania is the best company to work for in Romania (Hewitt survey 2008/2009). Adobe is an equal opportunity/affirmative action employer. We welcome and encourage diversity in the workplace.

Position Summary

This is a great opportunity for candidates with a strong consulting and technical background to work in a rapidly growing, fast paced environment.

The Day Consulting team assists clients and partners in achieving our clients' strategic e- business objectives through successful technology solution implementation. We provide business and technical guidance as well as Day product subject matter expertise. Execution with a high degree of quality, client satisfaction and ease of doing business with is of highest importance.

Responsibilities

Adobe's Global Services Group is responsible for delivering high class professional consulting to our customers and partners.

- The successful candidate will be a subject matter expert in Adobe's flagship products CQ5 WCM, DAM, Social Collaboration and CRX.
- The candidate will consult and mentor Adobe's customers and partners during the course of an implementation or afterwards as technical consultant.
- The candidate will consult the customer and partner on complex architecture design and project development done on Adobe's Enterprise products.
- The candidate will concept and lead complex project tasks, eg requirement specification, performance tuning or 3rd party integration.
- The candidate will conceive, specify and realize proof of concept projects onsite at the customer or partner location.
- The candidate must be willing to travel extensively and regularly (up to 75%) around Adobe's regional office and potentially Europe and, if desired, even intercontinental (Adobe has offices worldwide).
- If required, the candidate will develop applications and provide expert consultancy to customers and partners on project development.
- Other responsibilities may include workshops and training delivery on CQ5 to Adobe's partners and customers.

Requirements

For this job we are searching for people with:

- Either a Bachelor or Masters degree in Computer Science plus 4-6 years experience in the Web and/or ECMS technologies space.
- Candidate should have at least 3 years of Web technology programming experience, especially Java/J2EE (e.g. coding, heap dump & thread dump analysis,

Taglibs, EJBs, JavaBeans, JSPs), Content Management Systems (CMS), website architecture. Proficiency in HTML, DHTML, CSS, XML, AJAX, Apache & IIS.

- Experience and ability to conceptually understand the implications and propose architectures for large Web based solutions of different sizes, their implications on the solution concept and development as well as understanding the impact of caching and other performance related measures.
- Practical experience in HTML, CSS and overall presentation layer creation as well as experience with installation, administration and debugging of Servlet Engines or any commercial Application Server and the usage of respective technologies (Java Servlet, Java Server Pages) is required.
- The ideal candidate should also have substantial experience working with different operating systems, relational databases as well as proficiency in XML and related technologies.
- Debugging and appropriate debugging tools usage skills in general TCP/IP networking, UNIX and/or Windows XP/Vista Operating system, HTTP protocol and request processing, SMTP.
- Past technical support experience working in the Content Management space for a software company is an asset.
- Excellent oral and written communication skills; the ability to articulate technical solutions and how they can solve customer business problems.

Personal Profile

- Candidate must be proficient in strong communication and decision making skills in the above mentioned technologies.
- Excellent level of German and English.
- Candidate must act independently and be confident facing customer and partner. He must be very responsible and organized.
- Excellent interpersonal skills / strong team player.
- A positive attitude towards solving problems.

Benefits

- Industry-competitive salary
- Generous time off
- Educational assistance program
- Employee discounts on Adobe software
- Health Benefits
- Meaningful and challenging work
- Uniquely open and informal environment
- And much more...

Adobe is an equal opportunity employer. We welcome and encourage diversity in the workplace.

Adobe Overview

Adobe (NASDAQ: ADBE) changes the world through digital experiences. For more than two decades, Adobe has been at the heart of making engaging experiences happen, and we fuel the content creation and delivery ecosystem in a way no other technology company can. Adobe's award-winning technologies and solutions have redefined business, entertainment, and personal communications by setting new standards for producing and delivering content that engages people anywhere at any time. From rich images in print, video, and film to dynamic digital content for a variety of media, Adobe solutions have positively impacted nearly every market and industry.

To achieve this, Adobe offers customers a wide range innovative tools, services and solutions to create highly compelling and effective content and applications, regardless of format or medium. We enable seamless delivery and consumer access to rich content and applications and deliver solutions that efficiently target, assemble, deliver and measure use of content and applications to achieve optimal return on investment. We enable these three things across media and devices, better than anyone else in the world.

Adobe has been a pioneer and innovator throughout its history and is recognized as one of the Top 100 Best Global Brands according to Interbrand.
